## Description

### MY CARETAKER SERVICES

On June 1, 2011, I founded the concierge service Fabio Schwab. I have decided to take this step as services become more and more important in today's fast paced world and in the hustle and bustle of everyday life. It is often not possible for owners or tenants to work on general parts of the property, be it for reasons of time or health.

As part of the property management, I do with my reliable team quickly and professionally incurred janitorial activities around your property such as: Supervision of the proper condition of real estate, care of outdoor facilities by mowing, snow shovels, replacing broken bulbs, sweeping asphalt surfaces, green irrigation, the Check the cleanliness of the refuse collection points and clean them up, sweeping and washing staircases and corridors, sweeping sidewalks and courtyards, washing handrails and sweeping the basement, oiling doors, notifying owners and tenants of complaints to the property management (client) , Errands.

Convince yourself of my service! I am happy to make a non-binding offer for the care of your property.

**Fabio Schwab**
